

JJVA 2020 ATHLETE BANNER PROGRAM

Jacksonville Juniors Volleyball Association (JJVA), a 501(c)3 non-profit organization, was **founded in 1989** with a mission to grow and support youth athletics and the sport of volleyball.

In 2016 we renovated **75,000 square feet** of warehouse space, creating an indoor sports facility like none other in Northeast Florida.

As the **largest and most innovative indoor sports complex** between Atlanta and Orlando, the JJVA Training Center is the ultimate destination for families, athletes, businesses, and guests alike.

2020 ATHLETE FINANCIAL SUPPORT

Each year, JJVA offers team families the opportunity to offset annual club fees through its Corporate Banner Program. Each donation provides financial aid support for individual club fees, while at the same time contributes to JJVA's General Financial Aid Fund.

JJVA's General Financial Aid Fund awards athletes support through a rigorous application process. In previous years, we have been able to award on average nearly \$70,000 in financial support. We have helped hundreds of past and present athletes participate in JJVA's world-class training programs, when financial situations would have made such participation an impossibility.

Companies and organizations that participate in our Scholarship Banner Program have the opportunity to not only support youth athletics, but also extend their brand to players and their families. JJVA annually hosts local and national tournaments, camps, volleyball training, and sporting events that attract thousands of athletes along with family and friends. **The exposure is awesome!**
